AWOBONA YETUNDE

Full-stack Developer| Lagos State | awobonayetunde4@gmail.com | +2348152624601   Github

PROFILE

Highly motivated and detail driven recent graduate with a National Diploma in Statistics. Proficient in front-end development using JavaScript, HTML, Tailwind CSS, Next.js and back-end development using C#, Python, Laravel and .NET. I also have useful experience in data analysis with Excel and SQL. I'm excited to apply my skills and knowledge in a real-world setting and continue learning from experienced professionals

WORK EXPERIENCE

WEFITHOST (INTERNSHIP)   **June 2025 till present**

Role: Full-stack developer

I collaborate with my team members to;

- Build robust APIs and ensure seamless integration with frontend applications, bridging the gap between backend logic and user interfaces for efficient, scalable software solutions.
- Design and implement RESTful APIs using technologies like flask, Laravel, or .NET, focusing on secure, performant endpoints that handle data exchange, authentication, and business logic.
- Ensure frontend applications consume APIs effectively by writing client-side code for HTTP requests , handling responses, error management, and state management.

SHOMOLU LOCAL GOVERNMENT (SIWES)   **February 2024-June 2024**

Role: Junior Software developer (IT department)

I collaborated with team members and professionals to;

- Maintain software used for automating the organization's processes
- Utilize expertise in Excel to analyze and interpret data, providing insights that informed decision making

THE HAULAGE HUB LIMITED   **February 2023 - May 2024**

Role: Volunteer Junior Backend Development Intern

I collaborated with team members and experienced engineers to;

- Design and developed scalable backend solutions using C# and .NET
- Integrate backend services with web applications
- Build APIs
- Implement database management systems to store and retrieve data efficiently
- Ensure high-quality code through testing, debugging, and continuous integration

- Utilize expertise in Excel to analyze and interpret data, providing insights that informed decision making

TECHNICAL SKILLS

JavaScript   **HTML**

Rest APIs   **Tailwind CSS**

Next.js   **PHP**   **Python**

C#   **.NET Development**

SQL   **Git**

COMPETENCE

Critical Thinking & Problem Solving

Statistics

Backend Development

Communication

Time Management
